**The Flex Plan**

The Flex Plan is designed to give the best possible rate at the time the reservation is made. Generally, the earlier the booking the better the rate, and the rate in one location could be lower than that in another. So, if you are flexible, a cheaper alternative can be selected. Flex rates are updated each week and will apply to the booking made in that week regardless of season.

Once confirmed, any amendments involving vehicle, location, dates or renter's name could affect the rate. Current rate or original rate, whichever is higher will apply.

**How To Calculate Your Daily Rate**

Select the dates you wish to travel and work with your travel agent to find out which Flex Plan rate is current. We will quote you a rate from A1 to H8.

This rate corresponds to a daily price on the accompanying rate table and is determined by reading the row number first and then the number at the head of the column. For example, Flex Rate B5 is NZD55 per day for your rental.
